Passport proposal for 2023

From January – August of 2023 there will be no passports issued. There will be no double passports issued. Children must stay playing in their age groups during this period. During the year we will have the provincial next gen tours taking place. Children who do well in these events will be invited to the national camp days and then from there 16 children will be invited to the quarterly national fast 4 close tournaments. Children that finish top 4 in these events can apply for passports.

The top girl and the top boy at the end of the summer will be send to an academy for a weekend of training to reward them for all their efforts and progress over the year.
